Read the monologues and fill the checklist in task 5. Write the missed sentences.

You are going to give a talk about the mass media. You will have to start in 1.5 minutes and speak for not more than 2 minutes (10–12 sentences).

Remember to say:

- What is the mass media role in the modern world?
- What source of the mass media is the most popular?
- Does the mass media exist in your life?
- What is your attitude of the mass media?

1 I'm going to give a talk about the mass media. To begin with the huge role of mass media in the modern world. The reason of huge role is that people all over the world find the information in different available sources. They read magazines and newspapers, watch TV or surf the internet. Probably nowadays, the Internet is the most popular way. I suppose the reason is permanent access to the internet via phone. As for my attitude of the mass media, it is positive rather than negative. But I am sure people should control what they watch and check the information. In conclusion, I'd like to say that the mass media is a huge source for humanity, but people should think reasonably.

2 I'm going to give a talk about the mass media. The mass media is an important part of everyone's life. To tell the truth, I have no doubts in the immeasurable role of the mass media. Due to the media, people are aware of the last news, the world situation, some new discoveries and have access to the entertaining content. There are many sources like the radio, the television, the press. However I'm almost sure the internet is the most popular source due to the easiness to use at anytime. Personally in my life, the internet is the most used source. But I also watch TV with family and sometimes read online magazines. In conclusion, I'd like to say that the internet is a global source of the world knowledges and it's important to use them efficiently. That's all I want to say about the mass media.
