Логопедическая игра «ПРИШЕЙ ПУГОВИЦУ. Звуки [Л], [Р], [С], [Ш]»

Мы предлагаем вашему вниманию нашу увлекательную игру, которая поможет совместить закрепление произношения [Л], [Р], [С], [Ш] в различных позициях звука в словах с развитием графомоторного навыка и пространственной ориентации ребенка. Автоматизировать звуки станет намного интереснее!

В комплект игры входят: 9 листов со словами со звуком [Л], 27 листов со словами со звуком [Р], 10 листов со словами со звуком [С], 11 листов со словами со звуком [Ш].

Слова на карточках подобраны с учётом позиции звуков в слове:

- в открытом слоге в начале слова;
- в стечениях согласные в начале слова;
- в конце слова;
- в открытом (закрытом) слоге в середине слова;
- в стечениях согласных в середине слова.

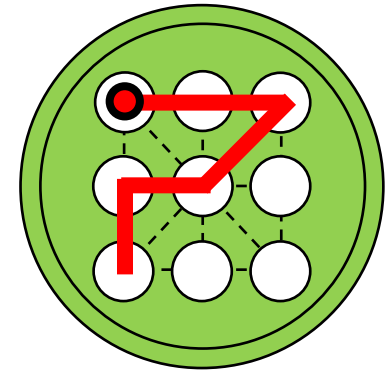

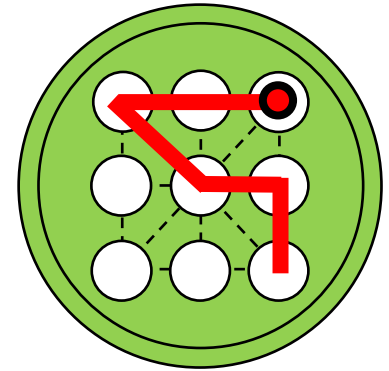

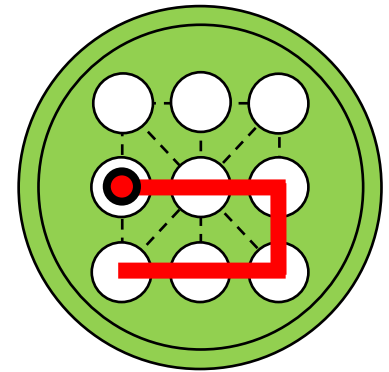

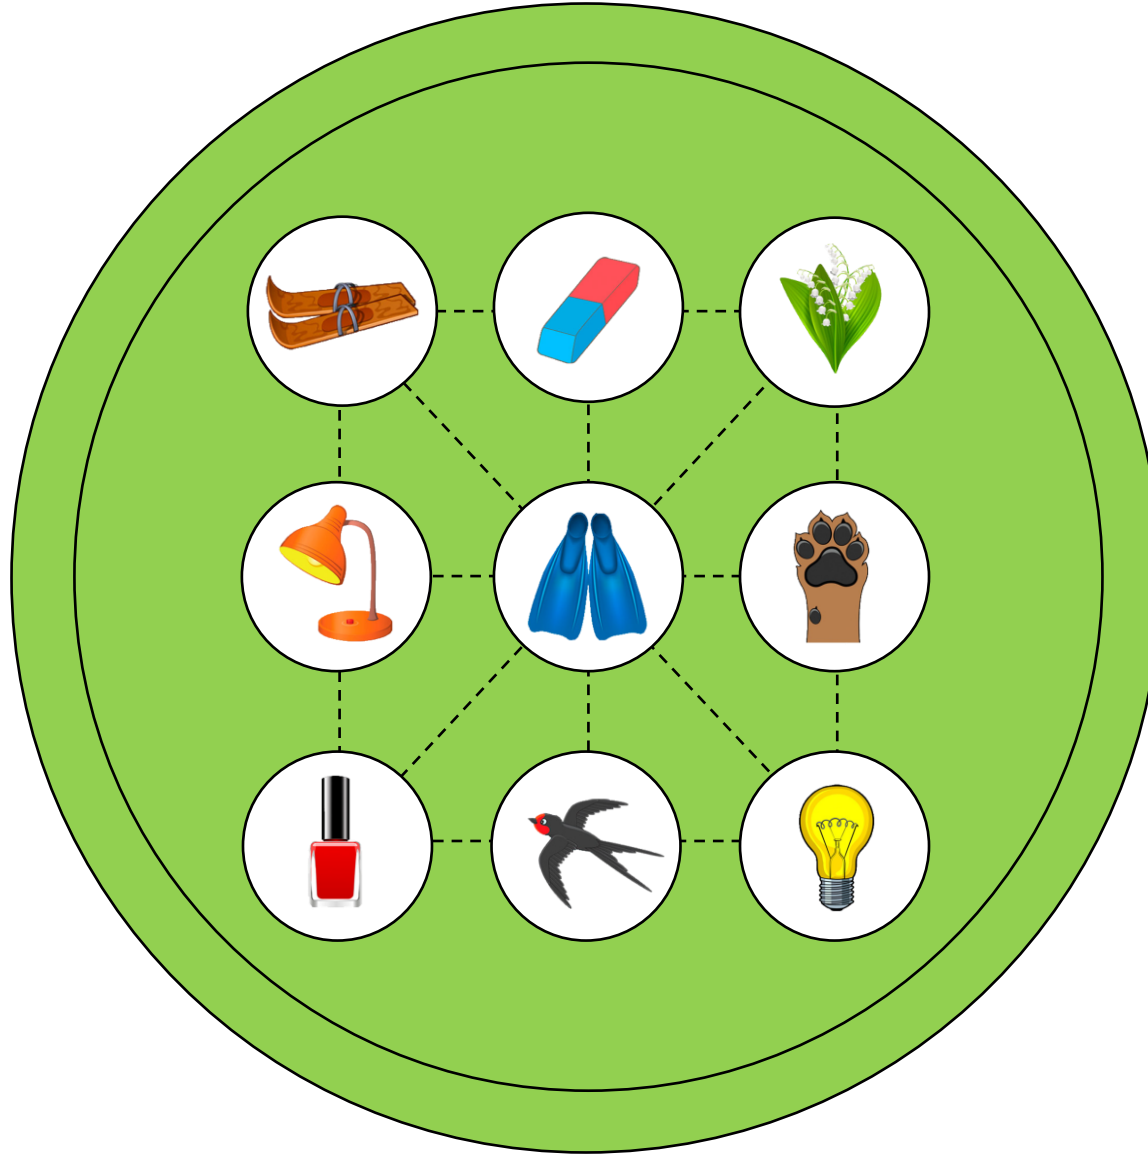

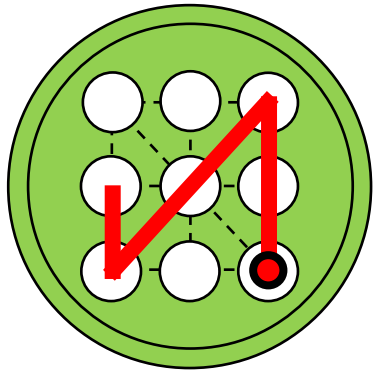

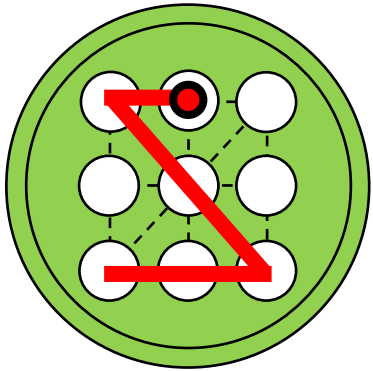

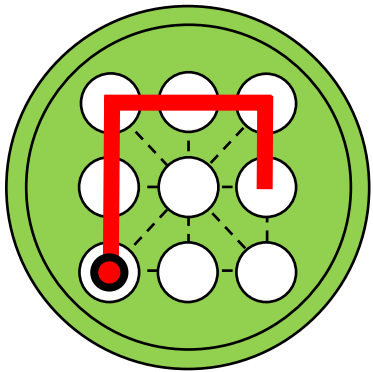

Правила игры

Игрок или игроки смотрят на карточки-схемы со стежками для пришивания пуговицы, расположенные по бокам от основной пуговицы. Ребенок (дети) проводят фломастером, ручкой, карандашом стежки согласно одной из схем, при этом называет те слова, через которые прошли стежки.

Игра хороша всем! Она не только развивает внимание, память, логическое и творческое мышление, моторику, но также умение добиваться цели, умение сосредотачиваться, соотносить «предмет-действие» и переключаться на другие предметы.

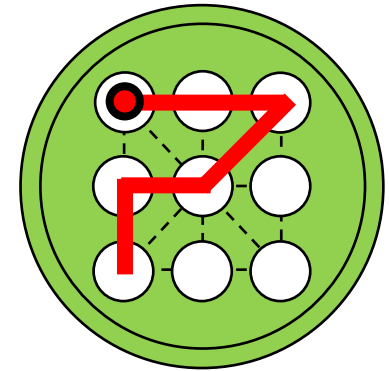

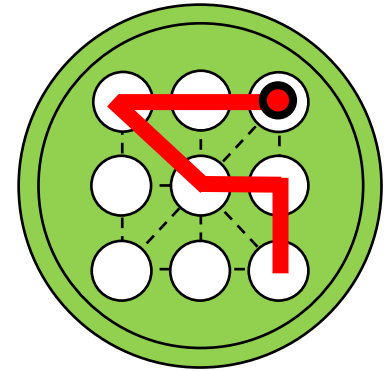

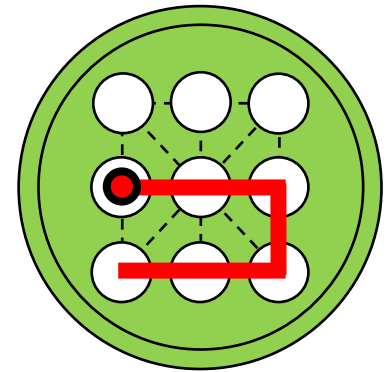

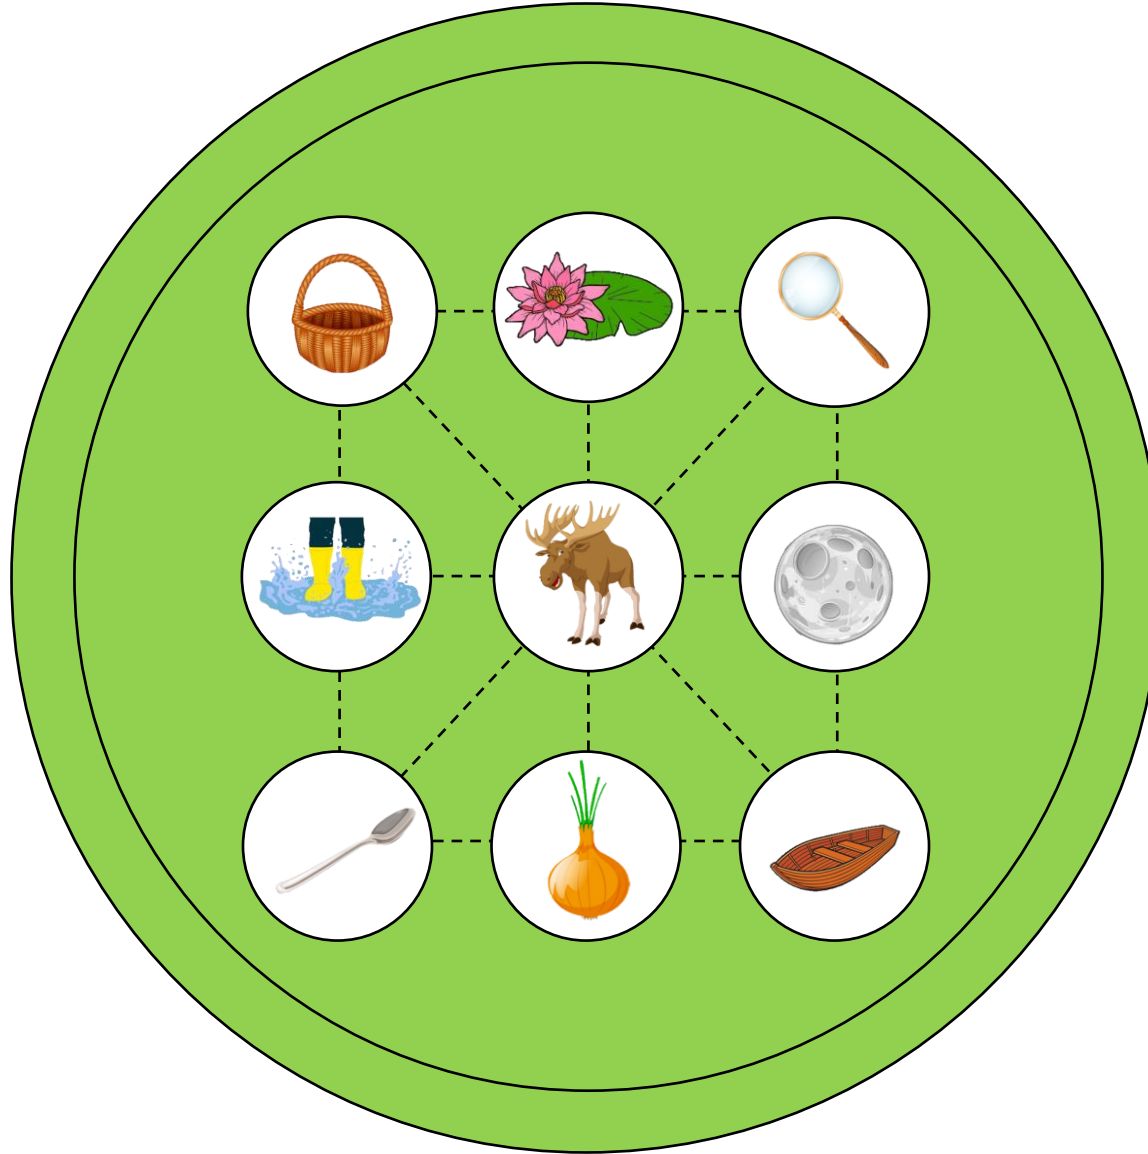

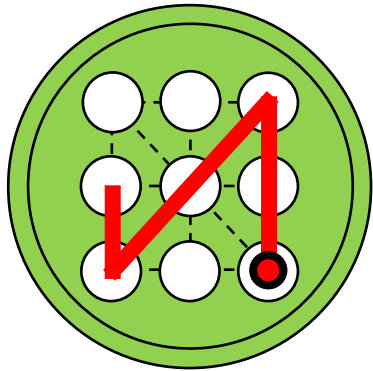

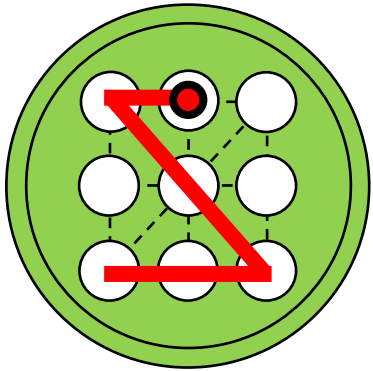

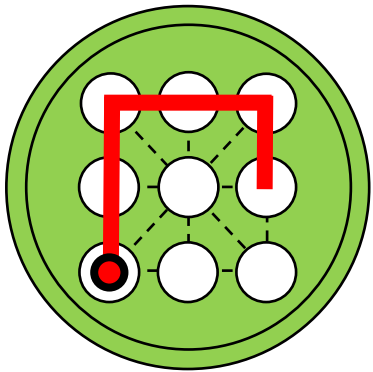

Игра может быть использована родителями, логопедами, воспитателями для работы с детьми старшего дошкольного и младшего школьного возраста.
